

Shanjif Cakravrthi

STUDENT

SUMMARY

I am a cybersecurity student with hands-on experience in network troubleshooting, Linux system administration, and penetration testing tools. built and maintained personal lab environments, including self-hosted servers and secure network configurations, to deepen practical understanding of system defense. Seeking a Cybersecurity Internship for August 2027 to apply skills in vulnerability assessment, network defense, and system administration.

EDUCATION

Diploma in Information Technology | 2022-2025

UCSI University, Kuala Lumpur

- Relevant Coursework: Operating Systems & Networks, Wireless & Mobile Technologies, Computer Ethics, Fundamental of Database System, Java Programming I & II, Object-Oriented Modeling, Systems Analysis & Design
- CGPA: 3.64

Bachelor of Computer Science (Hons) Specializing in Cybersecurity | 2025-2028

Multimedia University (MMU), Cyberjaya

- Relevant Coursework: Ethical Hacking & Penetration Testing, Network Security, Cryptography & Data Security, Cybersecurity Fundamentals, Computer Networks, Operating Systems, Algorithm Design & Analysis
- Current Year 2, Semester 2 Student
- Expected Graduation: 2028

TECHNICAL PROJECTS

Self-Hosted Home Cloud & Storage Infrastructure

- Configured and deployed a dedicated home server environment running Ubuntu Server OS.
- Implemented Nextcloud and Immich services for private cloud storage, media backup, and secure data sharing.
- Configured local networking protocols, storage management, and access controls to maintain service uptime and secure access.

Network Design & Security Simulations

- Built complex topologies in Cisco Packet Tracer to simulate enterprise networks, VLAN configurations, and routing policies.
- Practiced hands-on reconnaissance, threat simulation, and web application testing using Wireshark, Nmap, Metasploit, and Burp Suite.

LANGUAGES

- English: Professional Working Proficiency
 - Bahasa Melayu: Professional Working Proficiency
 - Tamil: Native/Bilingual
-

WORK EXPERIENCE

Part time Technical Support | MMT Universal Academy | 2024-Present

IT Support Intern | MMT Universal Academy | Internship 2024

- Diagnose and resolve network infrastructure, connectivity, and hardware issues across corporate facilities.
- Manage User Access Control (UAC) and permission structures to enforce secure system access protocols.
- Maintain system availability, hardware configurations, and administrative software setups for ongoing operations.

TECHNICAL SKILLS & CERTIFICATIONS

- Certifications: Google Cybersecurity Professional Certificate (Coursera) (Ongoing)
 - Security & Network Tools: Wireshark, Nmap, Metasploit, Burp Suite, Cisco Packet Tracer
 - Operating Systems: Linux (Daily driver: CachyOS / Arch-based, Ubuntu Server), Windows, MacOS
 - Languages & Scripting: Java, C++ (Basic), JavaScript, PHP, Python
 - Core Competencies: Network Troubleshooting, System Administration, User Access Control (UAC), Ethical Hacking Basics
-
